SUMMARY

- Motivated Computer Science student with experience in front-end development, particularly using React. Proven ability to improve team efficiency and project performance. Passionate about technology and eager to contribute to dynamic development teams.

EDUCATION

- **Lendi Institute of Engineering and Technology** — Vizianagaram, India
  Bachelor of Technology in Computer Science and Engineering — 2021 - Present
  - **GPA**: 8.66/10

EXPERIENCE

- **Symbiosis Technologies** — Visakhapatnam, India
  React Developer Intern — May 2024 - Jul 2024
  - **Efficiency**: Boosted team efficiency by 60% through development of reusable React components
  - **Performance**: Enhanced site efficiency by 70% by executing precise UI designs and specifications
  - **Leadership**: Led initiatives resulting in successful project delivery within deadlines
  - **Innovation**: Introduced new tools, increasing development workflow efficiency by 50%

- **GeeksForGeeks Club LIET** — Vizianagaram, India
  Technical Associate — Aug 2023 - Aug 2024
  - **Uptime**: Maintained club website achieving 90% uptime, ensuring seamless operations
  - **Optimization**: Increased website speed by 30% through strategic performance optimizations
  - **Collaboration**: Collaborated with team to develop 5+ new features, enhancing website functionality

PROJECTS

- **FarmBuddy** — Project Link
  Agrotech Website for Solving for India Hackathon — 2023
  - **Authentication**: Integrated Firebase for authentication, maintaining 100% uptime during event
  - **Plant ID**: Implemented Plant ID API for accurate plant recognition, enhancing user experience
  - **Geolocation**: Utilized Mapbox API for precise geolocation services, improving usability
  - **Deployment**: Deployed on GitHub Pages, ensuring accessibility and ease of updates

- **Cross Border Donations** — Project Link
  Platform for Secure Online Payments to International Charities — 2024
  - **Front-End**: Developed responsive front-end using React, enhancing user interaction
  - **Blockchain**: Ensured data integrity with blockchain technology, securing transactions
  - **Payment**: Integrated PayPal API for seamless payment processing, improving efficiency
  - **Version Control**: Managed project with Git version control, maintaining code integrity

- **YouTube Clone** — Project Link
  Built with React, Redux, and Tailwind CSS — 2024
  - **Live Chat**: Implemented real-time live chat feature using WebSocket, enhancing user engagement
  - **Personalization**: Personalized video suggestions based on user preferences, improving user retention
  - **Deployment**: Deployed on Vercel, ensuring scalability and optimal performance
  - **State Management**: Utilized Redux for robust state management, ensuring stability

SKILLS

- **Languages**: JavaScript, Java, C++, C, Python
- **Frameworks**: React, Redux, Node.js, Express.js, Bootstrap, Tailwind CSS, Material-UI
- **Tools**: Git, GitHub, Jira, Trello
- **Databases**: MySQL, MongoDB

CERTIFICATIONS

- **Meta Front-End Developer Specialization**: Coursera Certified (March 2023)
- **Digital Marketing**: Google Certified (February 2023)

ACCOMPLISHMENTS

- **Hackathon Winner**: Solving for India Hackathon (Round 1); recognized for innovative problem-solving and technical proficiency
- **Project-Expo Winner**: Recognized for outstanding project development and presentation skills
